

## **Shopio Integration Document**

## Introduction

This guide will show you how to configure PayUmoney as your payment processor on Shopio for payments through Credit Card, Debit Card, Net banking and Saved Cards.

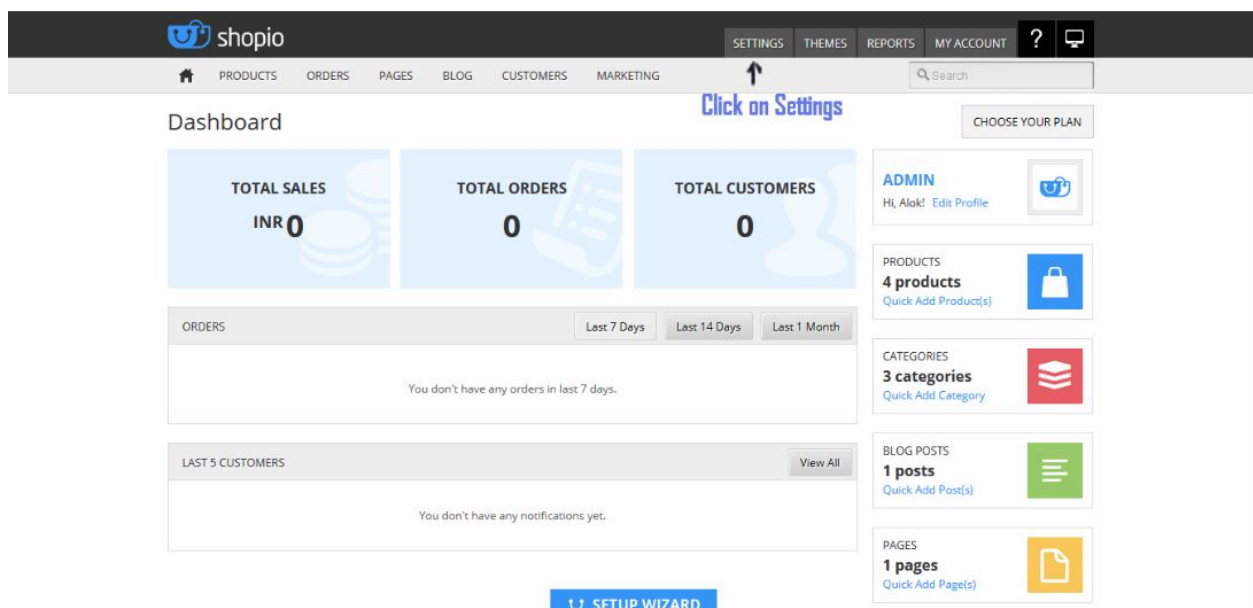

## Prerequisites

To Integrate PayUmoney payment gateway, you must:

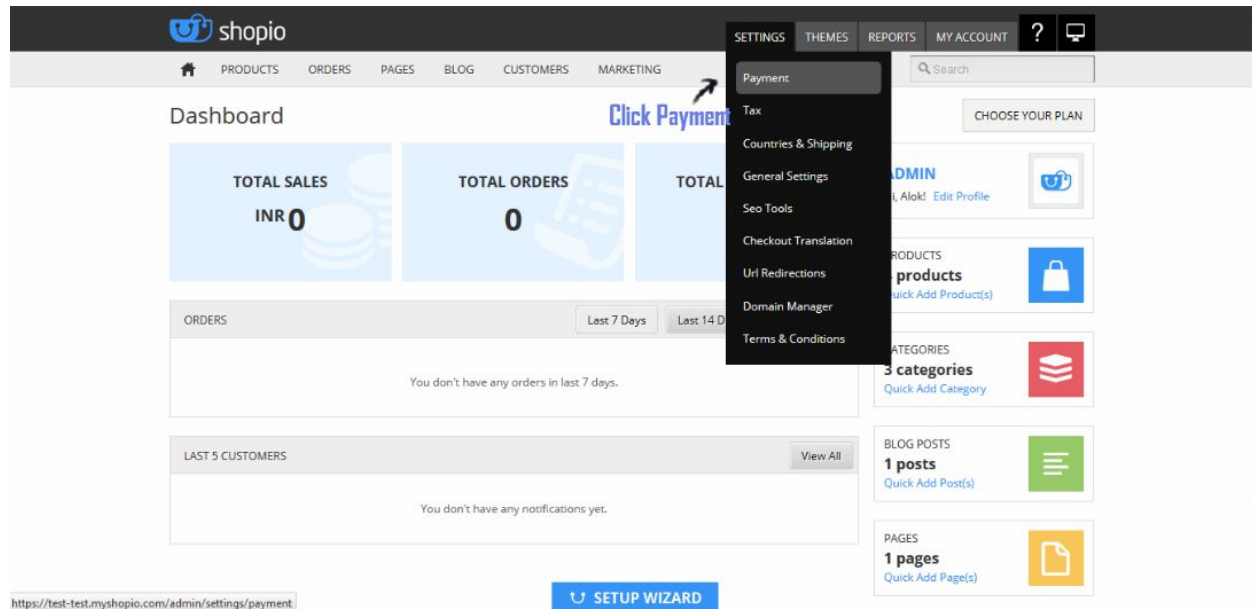

1. Have a merchant account with PayUmoney. If haven't already registered, please visit <https://www.payumoney.com/> and then register as a merchant.
2. Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney merchant account, please login at <https://www.payumoney.com/> and you will be able to retrieve your salt and key from the "Account details" tab.

## Steps to Integrate

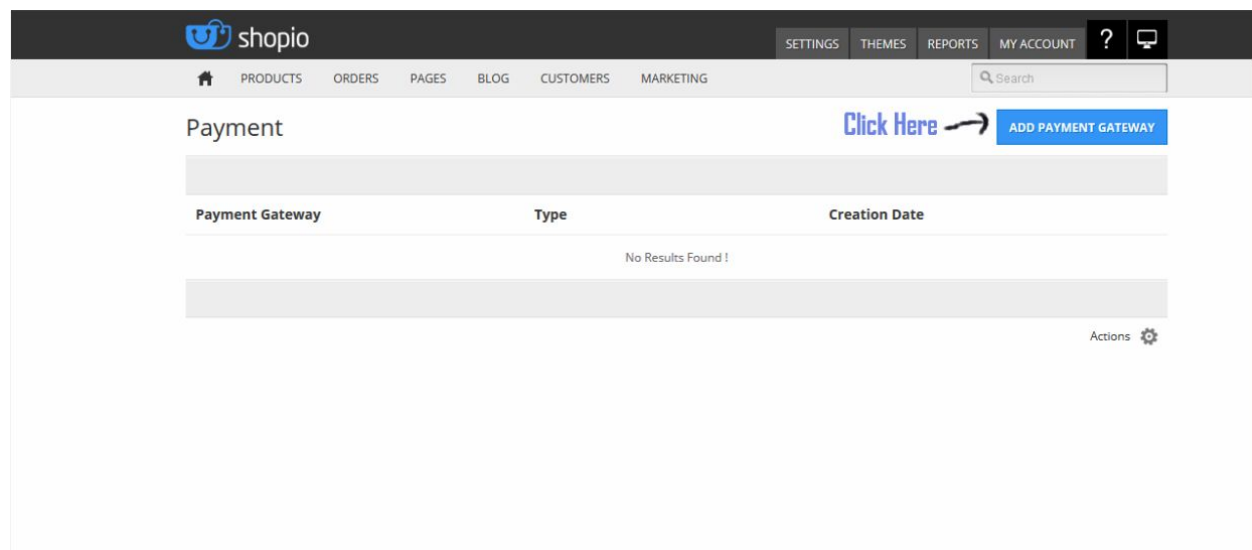

- 1) Login to your **Shopio** admin panel and click on **Settings**.

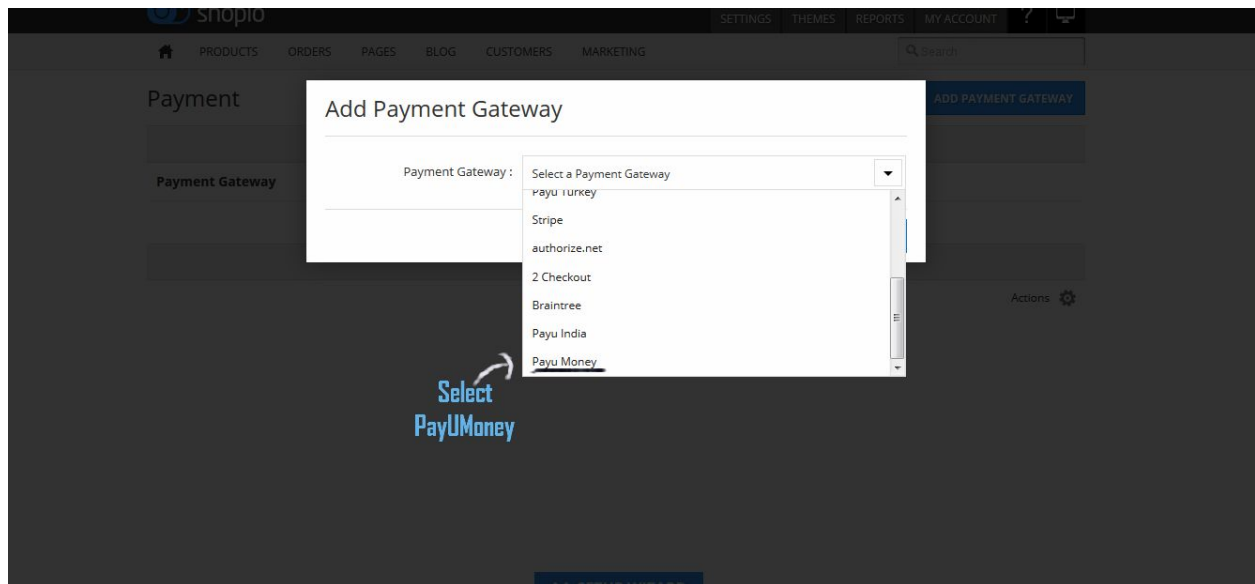

2) In settings, select **Payment**

3) On right side, Click on **Add Payment Gateway**.

4) Select **Payumoney** from the list of Payment Gateways.

5) Enter the **Key** and **salt**. The values of key and salt are available in your Payumoney merchant dashboard.

The screenshot shows a web interface for adding a payment gateway. On the left is a dark sidebar with 'Payment' and 'Payment Gateway' links. The main area is titled 'Add Payment Gateway For Production Mode(Prod)'. It contains a form for 'Payu Money'. The form fields are: 'Payment Method Name' (filled with 'Payu Money'), 'key' (filled with '//Merchant key provided by PayUMoney'), and 'salt' (filled with '//Merchant Salt provided by PayUMoney'). Below these is a 'Test Mode' section with two radio buttons: 'Prod' (selected) and 'Test'. At the bottom right are 'CANCEL' and 'ADD' buttons. A right sidebar contains 'ADD PAYMENT GATEWAY' and 'Actions' with a gear icon.

6) Save the changes and you should now be able to make a transaction.

## Testing

If you want to test the payment first, you should obtain test values for "Merchant Key" and "Salt" (not production) and enable checkbox "Enable PayU Test mode)".

**Test MID:** 4934580

**Test Key:** rjQUPktU

**Test Salt:** e5ilg1jwi8

**Test Authorization Header:** y8tNAC1Ar0Sd8xAHGjZ817UGto5jt37zLJSX/NHK3ok=

Below are the test card details for doing a test transaction in the testing mode. You may use the following card details for testing:

**Card Name:** Any Name

**Card Number:** 5123 4567 8901 2346 CVV: 123

**Expiry Date:** 12/2017

## Technical Assistance

For any queries, please book a slot using the below mentioned link and our technical team representative will call you at booked timings for query resolution.
